

February 24, 2022

Dear CUES School System Families and Staff,

Throughout the entire pandemic, the CUES School System has remained consistent and safe with our COVID-19 protocols while relying on guidance from our local health officials. **Thank you for entrusting us with your child(ren) during this very difficult time.**

Thank you for responding to our recent survey in regards to wearing masks. It is very important to us, as a system, that we continue to be respectful of one another and focus on God's Love, Kindness and Excellence.

The decision has been made and beginning **FRIDAY, FEBRUARY 25 masks will be **optional** for all students (PS-8th grade), staff and visitors in our schools.**

We continue to encourage vaccinations, due diligence when it comes to illness (keep students home), report COVID cases to respective school, etc.

We will return to wearing masks **IF/WHEN, there is a mask mandate issued for Douglas County and/or an exposure in a classroom. If there is a classroom exposure, students and teachers in the classroom will need to wear a mask for 10 days.**

Peace and please, be well.

If you have additional questions, please feel free to contact us or your building principal.

Father David Korth
President
CUES School System

Terri Bush
Chief Academic Officer
CUES School System
